PROMASTER  
MODELS

# Class **B** Advantages

- 🚐 Go where larger RV styles can't maneuver
- 🚐 Fun to drive
- 🚐 Minimum turning radius
- 🚐 Enhanced fuel economy vs larger motorhomes
- 🚐 Easy to Park (Malls, Casinos, Events, Driveways)
- 🚐 Great towing capacity (3,500 lb hitch receiver rating)
- 🚐 Very versatile , great for active outdoor lifestyles
- 🚐 Daily driver -Multi purpose- Mobile Office
- 🚐 Statistics show high resale value

The popularity of Class **B** is climbing to new heights

**Up 44.1%**

**OVERALL MARKET  
IN NORTH AMERICA**

2021 was an amazing year in Class B Motorhome sales in North America. The popularity of RVing in a fuel-efficient, easy to drive motorhome led to record breaking sales for all brands combined.

**Up 124.5%**  
**ROADTREK**

# THE ROADTREK STORY

*On the road  
since 1974!*

It all started with a man and a dream. Jac Hanemaayer first became interested in the RV business while designing his own model with Home & Park Vehicles Limited in 1974. The process of combining the comforts of a larger motorhome into a compact and easy-to-drive van was such an enjoyable life experience for Hanemaayer, he decided to purchase the company. The 2<sup>nd</sup> generation of the family advanced Roadtrek to the next level with many innovative and successful designs. This innovation excelled Roadtrek to be the sales leader in Class B motorhomes for decades to follow.

The Roadtrek brand was acquired by the Group Rapido LLC in 2019.

RAPIDO's origin began with the creative mind of Constant Rousseau. In 1961, for his own holidays, he invented and manufactured a canvas folding caravan. The first motorhome model left the factory in 1983. Three generations forward Rapido continues to be a leading competitor. Being part of the Rapido group of products brings forth many advantages for Roadtrek Inc. The common goals for both Roadtrek and Rapido are to provide a constant focus on customer satisfaction, quality and attention to detail.

# QUALITY CONTROL PROCESS

*Our Quality process includes recording the finish appearance and content of our vehicles prior to shipment to Dealers.*

## EVERYTHING MATTERS

Every new Roadtrek conforms to the critical safety standards of **CSA** for Canada and **RVIA** for USA shipments.

Incoming Components  
Manufacturing Process  
Compliance & Certifications  
Assembly Process Audits  
Appliance / LP Tests  
Fit & Finish Inspections  
Road Test / Wind Test  
Transporter Inspection  
Water / Rain Station Test  
Customer Satisfaction / Corrective Action

# QUALITY CONTROL PROCESS

## ROAD TEST

SYSTEMS, STABILITY, NOISE

## ASSEMBLY AUDIT

## INSPECTION

## RAIN TEST

LEAK TEST – INCLUDES  
HUMIDITY DETECTION

## HUMIDITY TEST

Humidity testing allows our inspectors to measure for the presence of moisture in areas concealed by interior coverings such as wall or ceiling panels.

# PRODUCTION PROCESS

We believe the Roadtrek Inc. manufacturing and assembly facility in Cambridge is truly the finest facility of its type in North America. Industry leading processes and our (2) 17 station production lines are designed to keep feet on the ground (no under chassis crawling), high levels of visibility, and easy access to the work area. The result is a comfortable and safe workspace. Happy Team Members...

Great Results.

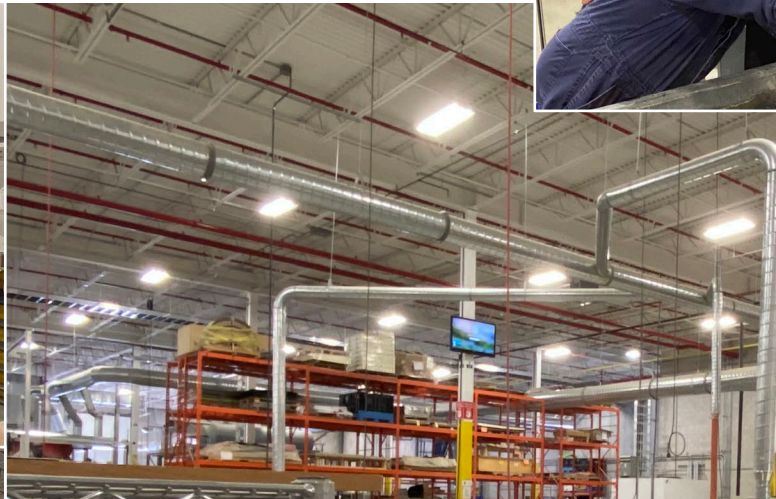

# CONSTRUCTION & ASSEMBLY

Having total manufacturing and design capability in house allows Roadtrek to lead the industry in styling and function.

- Vacuum forming poly components
- CNC precision and consistency
- Modular cabinet construction
- In house research and development

COMPLETE  
MANUFACTURING  
CONTROL

# INSULATION

Our poly resin Insulation is precision laser cut and then adhesive bonded to the chassis structure. Insulation remains intact with no sagging ensuring superior acoustic and thermal insulation comfort.

REDUCES NOISE ON THE ROAD AND AT  
THE CAMPSITE

PROVIDES SUPERIOR THERMAL  
PROTECTION

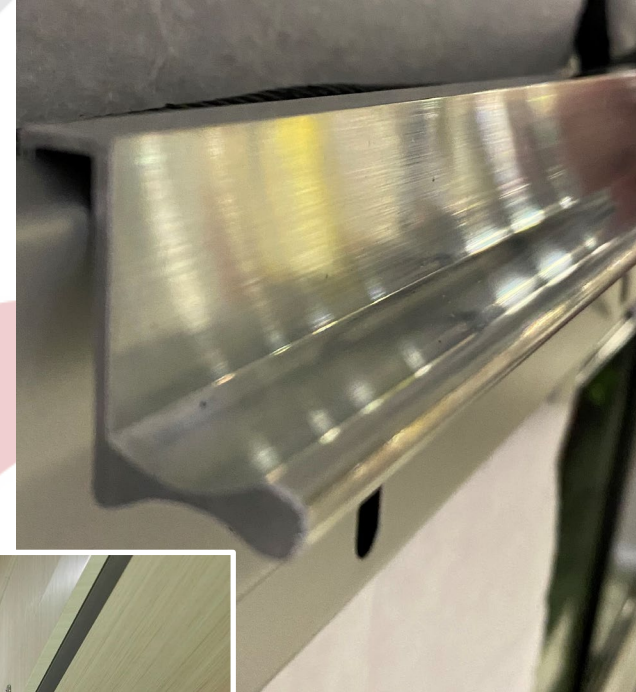

INSULATION IS SAFETY  
**CERTIFIED**  
FOR USE IN  
AUTOMOTIVE AND  
RECREATIONAL  
VEHICLE  
MANUFACTURING

# OUR REPUTATION HANGS ON ROADTREK BUILT STRENGTH

Roadtrek uses only METAL cabinet hanger brackets and secure rivet nut and bolt fasteners for installation of overhead cabinetry. This method of construction provides lasting anchor strength. Cabinets can withstand varied road conditions and everyday use without fatigue.

Some competitors use screws to quickly hang cabinets to chassis

**IMPORTANT**  
Weight in each cabinet should not exceed 50 lbs.

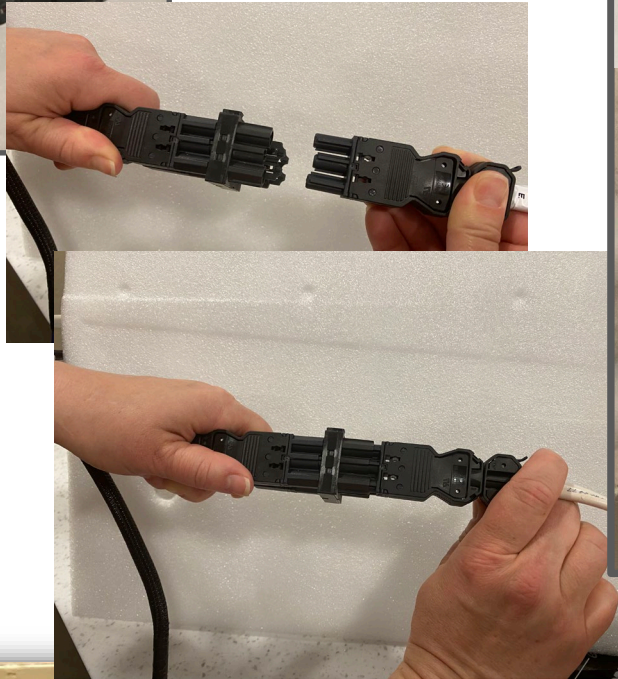

# DETAILS MATTER - PLUMBING AND ELECTRICAL

 **wieland**

Positive latching for superior electrical connections. There is simply NO better wiring harness connection system available.

Plumbing lines that pass-through chassis steel are rubber grommeted to protect the integrity of the system and prevent future wear issues.

**ROADTREK**

The attention to detail, codes, and safety is evident in this installation. Take note of how well this wiring assembly is secured for future reliability and serviceability.

# BODY CONTOURED CUSTOM CABINETRY

At Roadtrek our cabinets are custom CNC cut to duplicate the sidewall profile of the Van. This process improves the amount of usable space inside the vehicle.

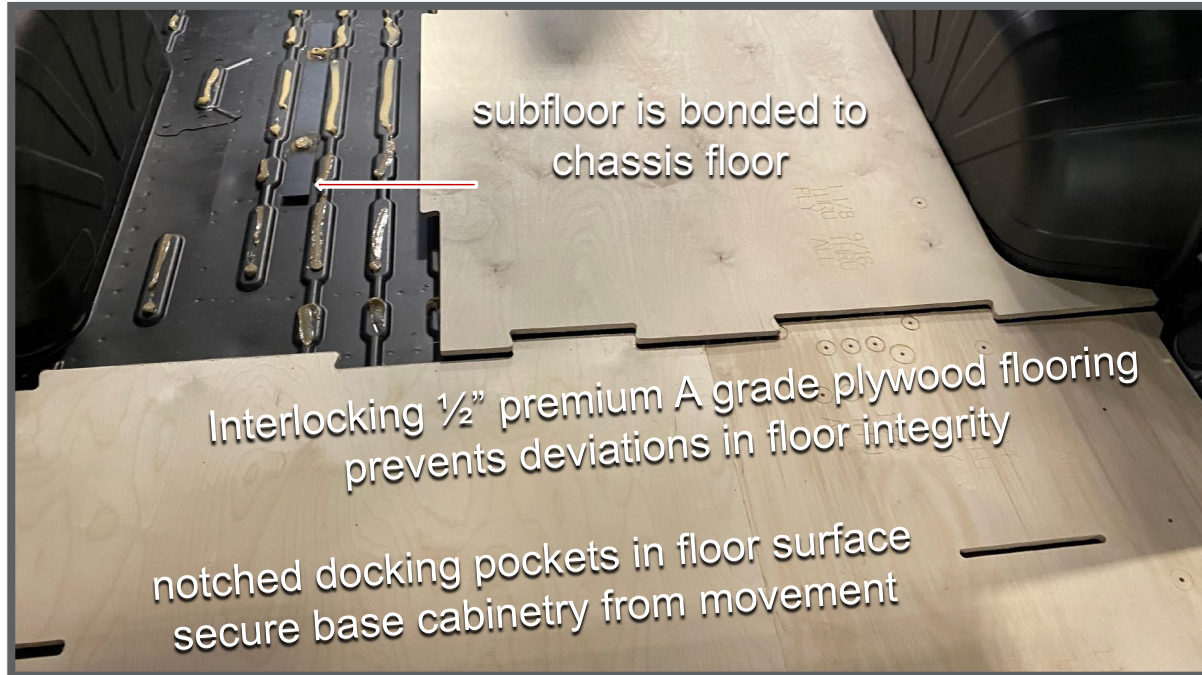

## 8% EXTRA USABLE INTERIOR SPACE

# INTERLOCKING FLOOR STRUCTURE

Polyurethane adhesive and countersunk fasteners  
Bonds the ½" Grade A plywood to the chassis floor

# EVERY CABINET IS DESIGNED TO LAST

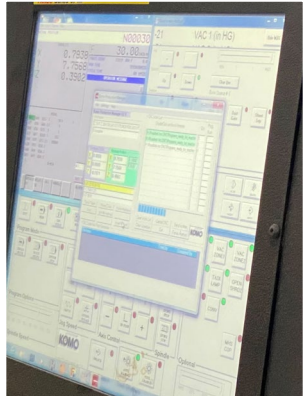

Commitment to detail combined with plywood, screws, and glue are essential components of the cabinet assembly process.

# PRECISION MILLED SEAMLESS CABINET EDGING

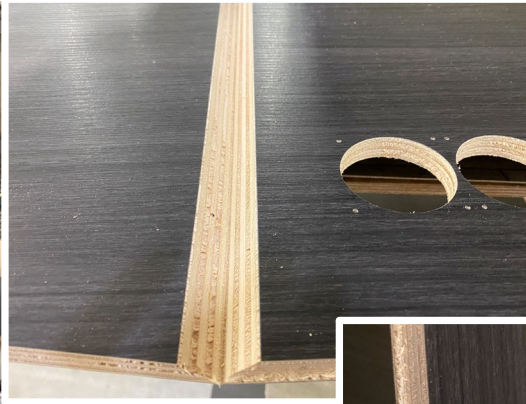

Much of the cabinet work in the Roadtrek utilizes the precision cutting of CNC (COMPUTER NUMERICAL CONTROL) technology. This precise milling enables some cabinet box folding during assembly. This process provides superior structure and eliminates the need for corner moldings which are common assembly “shortcuts” in competitors' products.

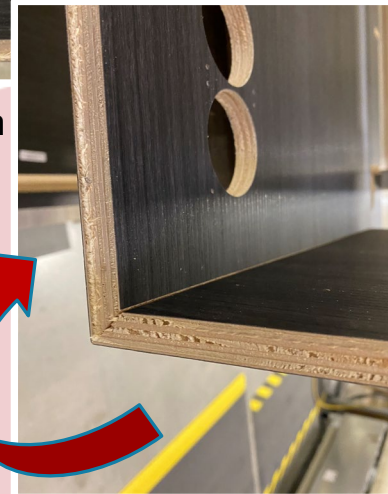

Program

Precision Cut

Inspection

Heat, Fold, Glue, and Screw

Seamless Edge

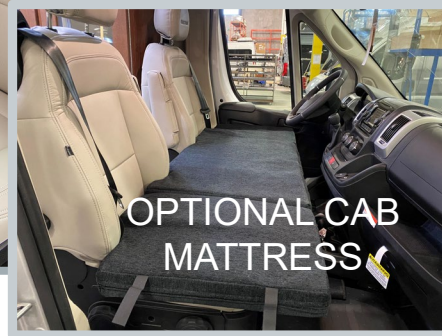

## ENVIRONMENTALLY FRIENDLY

*CNC mapping utilizes the best possible use of each sheet of material which greatly reduces waste.*

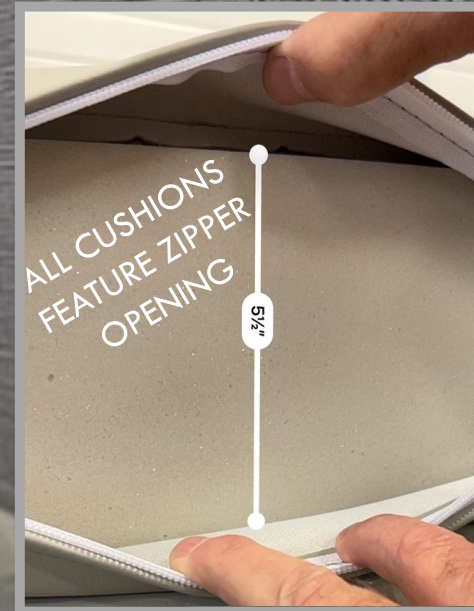

# INTERIOR CUSHIONS AND CAB AREA SEATING FEATURES

# SUBMERSION TEST ON ALL HOLDING TANKS

This EXTRA STEP helps to validate a leak free plumbing system in your new Roadtrek. (Mandatory testing on every Roadtrek we build)

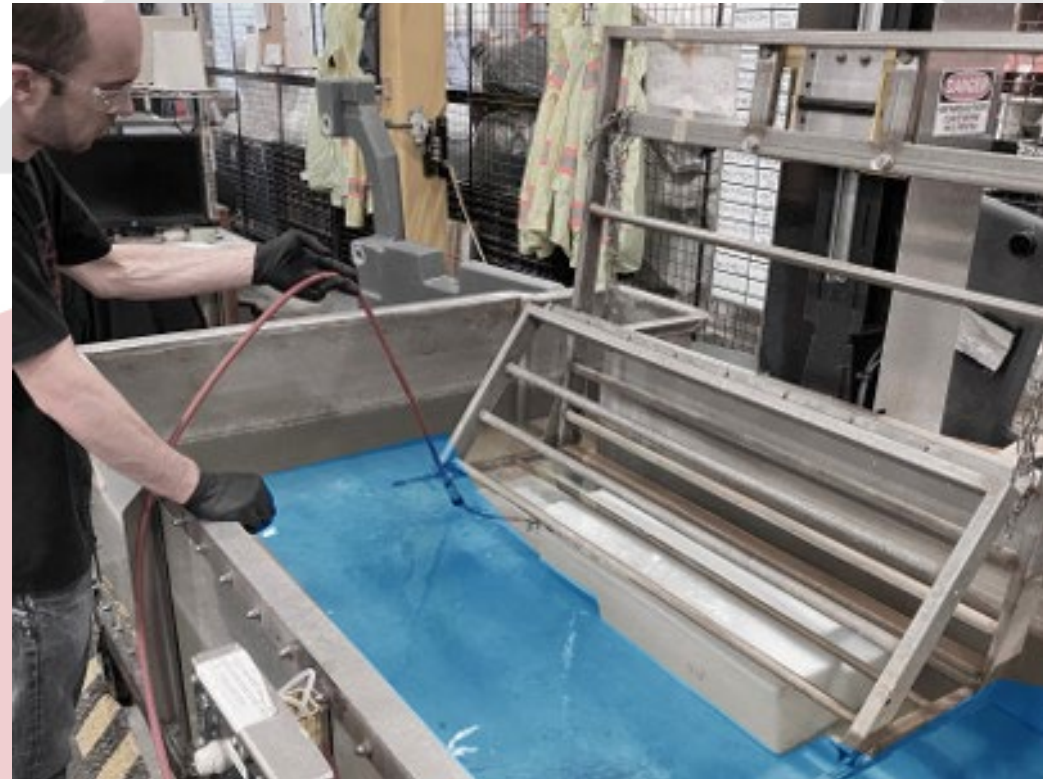

1

Air pressure is connected to the inlet of the completed tank assembly.

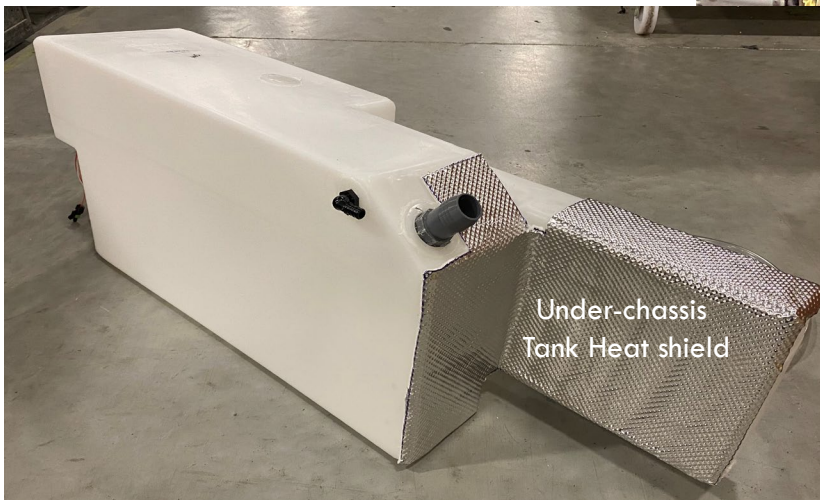

2

The tank is then submerged underwater for 1 minute to confirm there are no air bubbles present.

*Fresh Water*

Under-chassis  
Tank Heat shield

**37  
GALLONS**

20 Gallons freshwater capacity under coach plus **“BONUS”**  
17 Gallons inside coach

Roadtrek vans provide maximum fresh water holding capacity. These well engineered tank designs utilize otherwise wasted space inside the vehicle. One tank is uniquely concealed behind the cab area and isn't visible inside the coach once the Roadtrek is complete.

## ELECTRICAL- DETAILS MATTER

\* **600 AMPS** (Qty 2 x300 Modules)

### LITHIUM BATTERY POWER

Roadtrek Lithium modules include Built-in Battery Management Systems (**BMS**) to optimize and regulate battery performance. These modules also include **Built In Heaters** to help manage battery performance in cold weather.

\* Some existing Dealer inventory may be 400 AMP equipped.

Lithium modules are safely stored under chassis and “not” inside coach. No need to use valuable interior storage space. All terminals are weather protected

-Shielded Safety Box  
-Heavy grade steel

3,000 WATT

### PURE SINE WAVE CHARGER/ INVERTER

Inductive loads like microwaves and motors run faster, quieter and cooler when using a sine wave inverter. Helps to eliminate tripping circuit breakers. It can handle power spikes up to 9,000 watts.  
Example: using microwave & AC

Auxiliary AGM battery is supplied in Lithium equipped Roadtrek to provide source current for Under hood Generator / Firefly / Lithium . (GU)

# UNDERHOOD GENERATOR

"EXTREMELY EASY TO USE" ....IF ENGINE IS RUNNING SYSTEM IS GENERATING HOUSE BATTERY POWER

300WATTS SOLAR

280  
Amp hr.

No propane  
required

**WHISPER QUIET**  
Using chassis engine  
idle is extremely quiet.

**CAMPGROUND  
FRIENDLY**

**FAST RECHARGE  
RATE FOR HOUSE  
BATTERIES**

Output of GU is rated  
280  
Amps hr.

Regulated charge control Maximum Output 25 Amps/hr

*PLAY Series and Zion Slumber models are pre-wired for solar.*

# FULL BODY PAINT

## CUSTOM PAINTED COMPONENTS

Many Roadtrek models feature custom full body exteriors. Items such as body panels, bumpers, awning, and A/C cover are carefully clear coat painted to match the overall appearance of the Van. The result is a vehicle with a luxury, **easy clean** presence. The Van looks less like an RV and more like a prestigious travel Van. This appearance may help to gain parking privileges within gated communities or regulated H.O.A properties.

Note: Full Body Paint not available on PLAY Series models

34 CUSTOM PAINTED EXTERIOR COMPONENTS

- 👍 Full privacy roll down night shades
- 👍 Storage pockets in rear screen
- 👍 Pet friendly

Rear screen rolled up

Rear screen full privacy

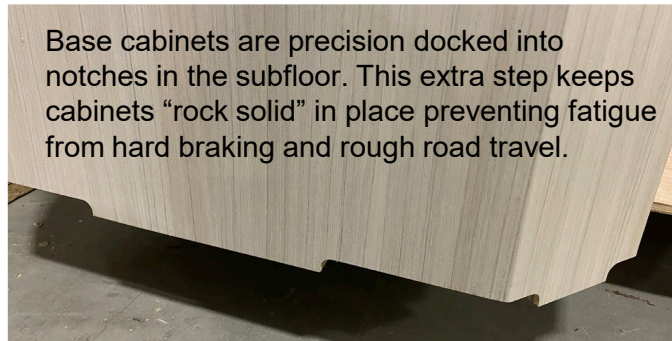

Rear screen in use

# INTERIOR STORAGE

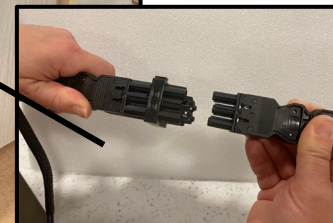

An abundance of sofa area storage

Base cabinets are precision docked into notches in the subfloor. This extra step keeps cabinets "rock solid" in place preventing fatigue from hard braking and rough road travel.

## HUGE EASY ROLL OUT PANTRY

Weiland Connectors allow for cabinet module wiring to be completed in the cabinet shop. Final electrical can be easily connected to the primary electrical harness once the cabinet module is installed in the Roadtrek.

# INTERIOR HIGHLIGHTS

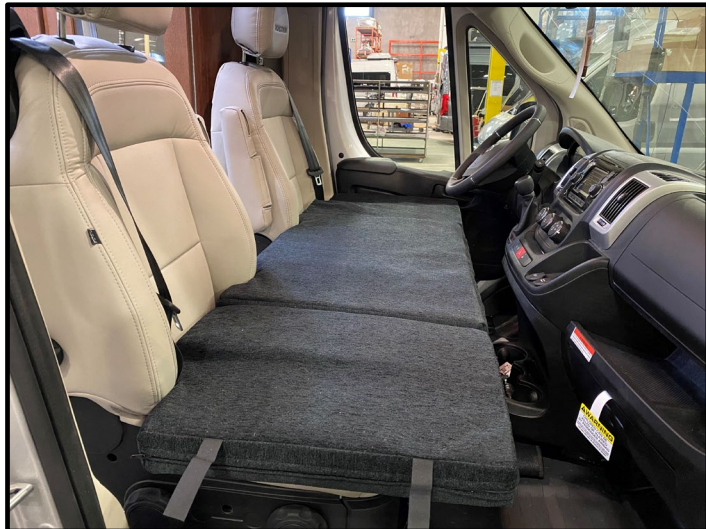

Optional **Lagun** table can work in both front and rear of vehicle.

Adjustable height

Swivel / extends
