This information is intended as a guide only; please visit www.roadtrek.com for a complete list of specifications and options. Some motorhomes may be shown with equipment that is optional. Accessories shown in photography are not included.

The Under Hood Generator (GU)

charges the coach 400 AMP AGM batteries when the chassis engine is running.

Important:

Useable power must be topped up to maintain adequate battery reserve

Whisper Quiet

Using Chassis engine idle is extremely quiet.

Campground Friendly

Fast recharge rate for house batteries

Output of GU is rated 280 Amps/hr.

Whether **Boondocking** or plugged into **Shore Power**, put your mind at ease with Roadtrek's distinct electrical system that keeps you powered up.

The **PLAY** uses traditional gravity feed system **PLUS** an **ELECTRONIC PUMP MACERATOR** system which provides fast, hygienic, waste disposal.
