

The *why buy* Book.

Version 2026 – V2

Class B Advantages

Why *customers choose* a class B!

Class B camper vans offer the freedom to travel on your terms without sacrificing comfort or convenience. Their compact size makes them easy to drive and park while still providing the amenities needed to travel comfortably wherever the road takes you.

Easy to Drive

Drives much like a large SUV or cargo van, making the transition to RV ownership feel natural and comfortable.

Easy to Park

Fits comfortably in most parking lots, driveways, and campsites without the challenges of a larger motorhome.

Go More Places

Access scenic destinations, city streets, and campsites that may be difficult to reach with larger RVs.

Fuel Efficient

Consumes less fuel than most Class A and Class C motorhomes, helping reduce travel costs.

Tow Your Gear

Every Roadtrek comes equipped with a 3,500 lb hitch receiver, making it easy to bring bikes, trailers, and outdoor gear along for the journey.

Everyday Versatility

Ready for weekend getaways, cross-country road trips, and everything in between.

Adventure Without Sacrifice

Enjoy a kitchen, bathroom, sleeping area, and living space in a compact, easy-to-manage footprint.

Strong Resale Value

Strong demand for Class B motorhomes helps support long-term value and ownership confidence.

The Roadtrek Story

Over *50 years* of Innovation

For more than 50 years, Roadtrek has helped shape the Class B motorhome category with compact, comfortable, and easy-to-drive camper vans. What began as one man's vision has grown into one of the most recognized names in Class B travel.

A Class B Pioneer

Roadtrek's story began in 1974 when Jac Hanemaayer set out to combine the comforts of a larger motorhome with the freedom and drivability of a van.

Built Around Real Travel

From the beginning, Roadtrek focused on smart use of space, practical layouts, and features designed to make life on the road easier.

Decades of Innovation

Roadtrek became known for creating comfortable, functional Class B motorhomes that helped define the category for generations of RVers.

A Trusted Name in Camper Vans

With more than five decades of experience, Roadtrek continues to be a familiar and respected name among Class B owners, dealers, and RV enthusiasts.

Groupe Rapido

In 2019, Groupe Rapido acquired the Roadtrek brand and supported the establishment of Roadtrek Inc. and the return of Roadtrek manufacturing to Cambridge, Ontario.

Conestogo Partners

In 2026, Roadtrek entered a new chapter under the ownership of Conestogo Partners, a U.S.-based permanent capital ownership group focused on the outdoor recreation industry.

A Full Lineup for Today's Travelers

Backed by new ownership, Roadtrek continues to build on more than 50 years of brand trust, customer loyalty, and commitment to service.

Customer Care

Support *every mile* of the journey

DEALER SUPPORT : dealersupport@roadtrekinc.com

RETAIL SUPPORT : retailsupport@roadtrekinc.com

When you purchase a Roadtrek, you're backed by a dedicated team committed to helping you enjoy your ownership experience. From product questions to warranty assistance and roadside support, we're here when you need us.

Experienced Support Team

Our customer care team brings decades of combined RV industry knowledge and is committed to providing responsive, helpful support.

Delivered with Care

Roadtrek vehicles are float transported to dealerships to help maintain quality standards and minimize delivery mileage.

ROADTREK WARRANTY	PROMASTER WARRANTY	ROADSIDE ASSISTANCE
2 Years COMPREHENSIVE NO MILEAGE LIMIT Appliance and component warranties are provided by the supplier or component manufacturer.	ProMaster Chassis Warranty – 5-year/60,000-mile or 100,000-kilometer Gas Powertrain Limited Warranty covering the cost of repairs on all covered powertrain components – engine, transmission and drive system for most new Ram vehicles. 3-year/36,000-mile or 60,000-kilometer Limited Warranty, provides bumper-to-bumper coverage of your vehicle, from the body to the electrical system.	 -Emergency Roadside Assistance -Towing -Jump Starts -Emergency Fuel delivery -Tire Assistance -Locksmith/Lockout Service

Our Community

A community *beyond the van*

<https://www.facebook.com/groups/roadtrekincofficial>

This is the official community group for Roadtrek owners and fans! Whether you have a legacy model, a new one, or are starting your research into ownership, all are welcome in our community.

Owning a Roadtrek means joining a passionate community of travelers who share a love of adventure, connection, and helping one another on the road. From local meetups to large rallies across North America, Roadtrek owners are never far from a friendly face.

Roadtrek International Since 1993

Roadtrek International (RTI) is a volunteer-run, not-for-profit organization dedicated to supporting Roadtrek owners across North America.

Rallies & Events

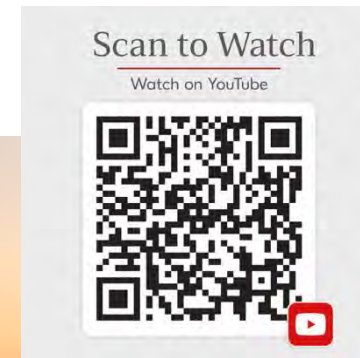

Participate in owner rallies, caravans, regional gatherings, and social events that bring the Roadtrek community together.

Support Beyond the Dealership

Whether online or around a campfire, Roadtrek owners are known for helping one another and welcoming new members into the community.

A Shared Passion for Adventure

From weekend escapes to cross-country journeys, the Roadtrek community celebrates the freedom and experiences that make van travel unique.

Three Little Windows

How do you *know it's a Roadtrek*?

Did you know?

The 3 vinyl decals on the cab are replicas of window styling from Roadtrek legacy models. When you see them, you know it's a Roadtrek.

The Roadtrek Wave

You'll know a Roadtrek owner when they pass by with a friendly three-finger wave. This small but meaningful gesture is a nod to the three little windows found on legacy Roadtrek models and has become a beloved symbol of connection within the Roadtrek community. Roadtrek International members even wrote a song inspired by this tradition — scan the QR code and give it a listen!

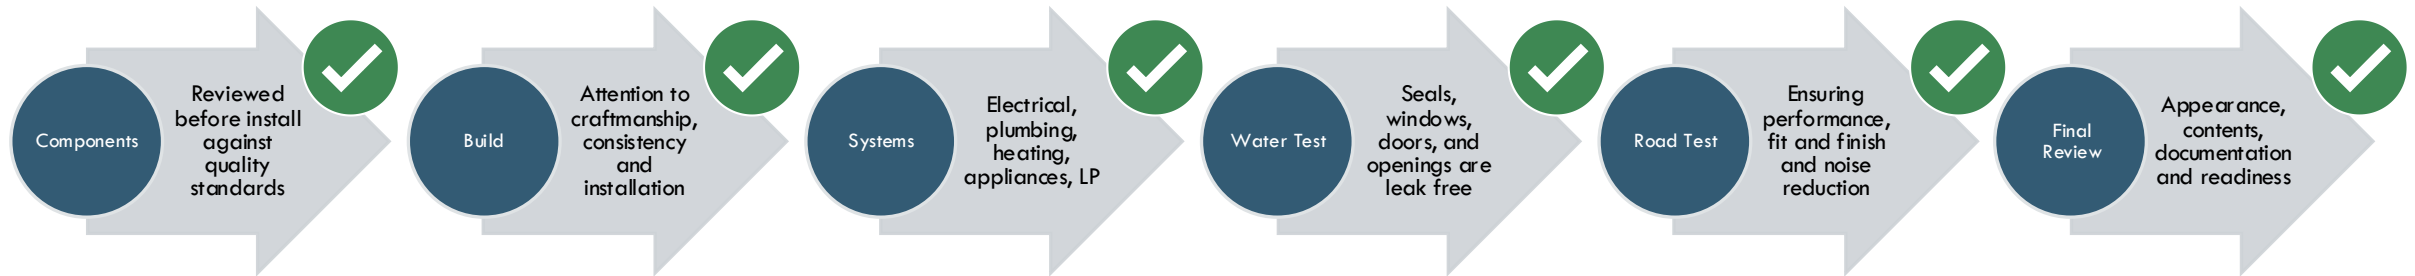

Quality Control

Built, tested, and reviewed before delivery

Every Roadtrek is built with care and reviewed through multiple quality checkpoints before it leaves our facility. From incoming components to final inspection, our process is designed to support safety, consistency, and customer confidence.

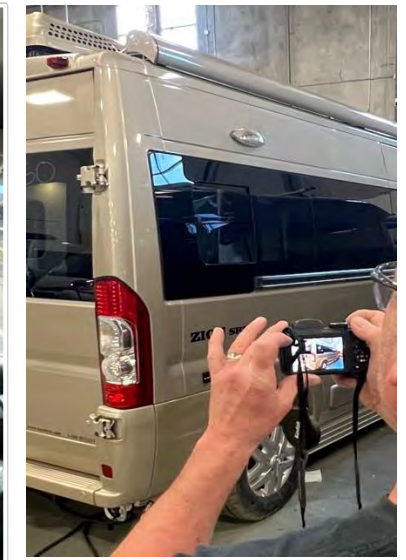

Experienced Quality Team

Our quality team brings knowledge from automotive, manufacturing, and product inspection backgrounds to help support consistent build standards.

Certified Standards

Every new Roadtrek conforms to the critical safety standards of **CSA** for Canada and **RVIA** for USA shipments.

Production Process

Built with *purpose*.
designed for *consistency*.

Every Roadtrek is built in our Cambridge, Ontario manufacturing facility by a team focused on quality, consistency, and care.

Our production process is designed to give team members safe, efficient access to each vehicle throughout the build. With clear visibility and organized workstations, each Roadtrek moves through one of two 19 station structured assembly production lines, before reaching final inspection.

Construction & Assembly

Built with *in-house* expertise

Roadtrek's manufacturing process brings key design, construction, and assembly capabilities under one roof. This allows our team to maintain greater control over quality, consistency, and the details that shape every finished vehicle.

➤ Vacuum-formed plastic and ABS components

Vacuum-formed plastic and ABS components allow for durable, lightweight, and easy-to-clean interior features.

➤ Modular Cabinet Construction

Cabinetry is built with a modular approach to support efficient assembly, serviceability, and consistent craftsmanship.

➤ Precision-Cut CNC Components

CNC technology helps create accurate, repeatable parts for a clean fit and finish throughout the vehicle.

Complete
manufacturing
control

In-house design and development allow Roadtrek to refine layouts, test ideas, and support continuous product improvement. From early construction to final build stages, Roadtrek maintains visibility over the process to help deliver a finished vehicle that is ready for the road.

Insulation

Our poly resin insulation is precision laser cut and then adhesive-bonded to the chassis structure. Insulation remains intact with no sagging, ensuring superior acoustic and thermal insulation comfort.

REDUCES NOISE ON THE ROAD AND AT THE CAMPSITE

PROVIDES SUPERIOR THERMAL PROTECTION

INSULATION IS SAFETY
CERTIFIED
FOR USE IN
AUTOMOTIVE AND
RECREATIONAL
VEHICLE
MANUFACTURING

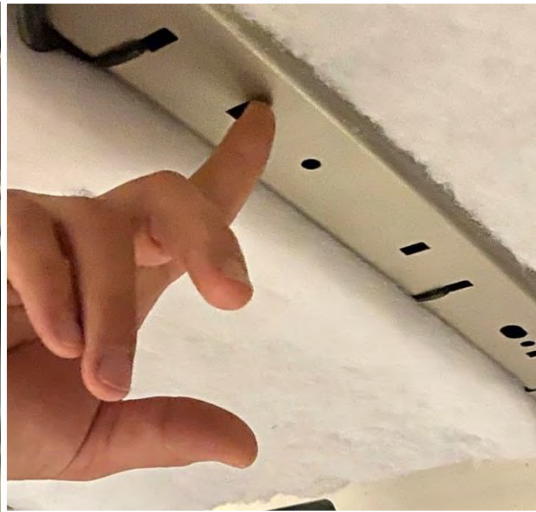

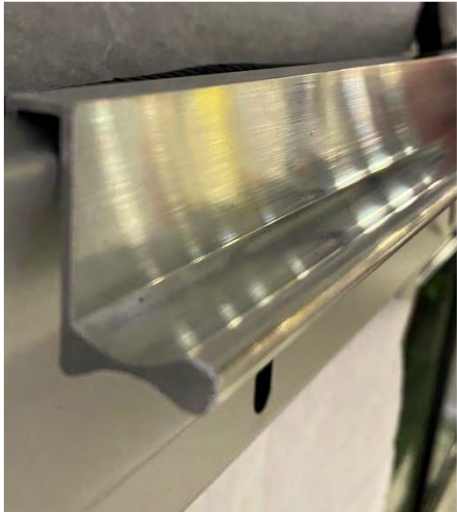

Our reputation hangs

On Roadtrek *built strength*

Roadtrek uses metal cabinet hanger brackets with secure rivet nut and bolt fasteners to support overhead cabinetry. This construction method helps provide lasting strength and stability for the movement, vibration, and everyday use that comes with life on the road.

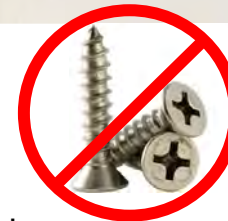

Metal Hanger Brackets

Overhead cabinetry is supported with metal brackets designed to provide a strong, secure mounting point.

Rivet Nut & Bolt Fasteners

Roadtrek uses rivet nut and bolt fasteners instead of relying on standard screws alone.

 Each overhead cabinet is designed for practical storage use, with a **recommended maximum load of 50 lbs per cabinet.**

Details *Matter*

Plumbing and *electrical*

The systems behind the walls matter just as much as the features you see. Roadtrek pays close attention to plumbing and electrical details to support safety, reliability, and long-term serviceability.

Protected Plumbing Lines

Plumbing lines that pass through chassis steel are rubber-grommeted to help protect the system and reduce wear over time.

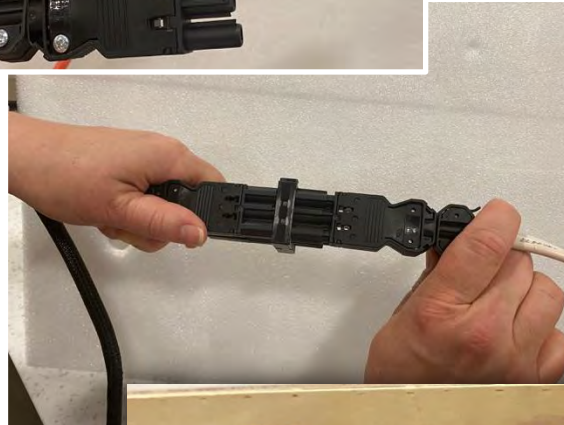

Organized Wiring Assemblies

Wiring is carefully assembled and secured to support reliability, consistency, and easier service access when needed.

Positive-Latching Connections

Roadtrek uses secure electrical connections designed to stay firmly in place through travel, vibration, and everyday use.

Body Contoured Custom Cabinetry

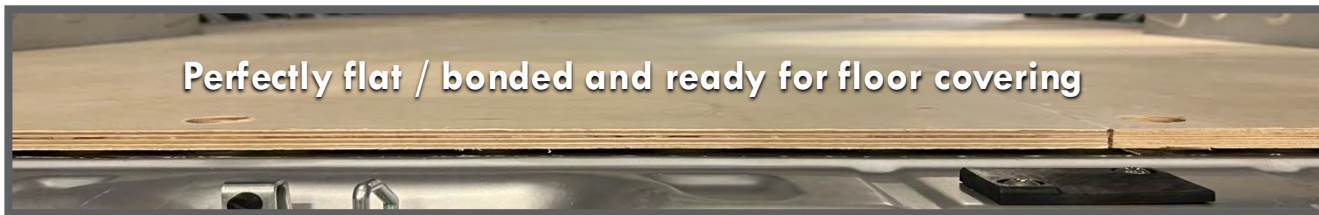

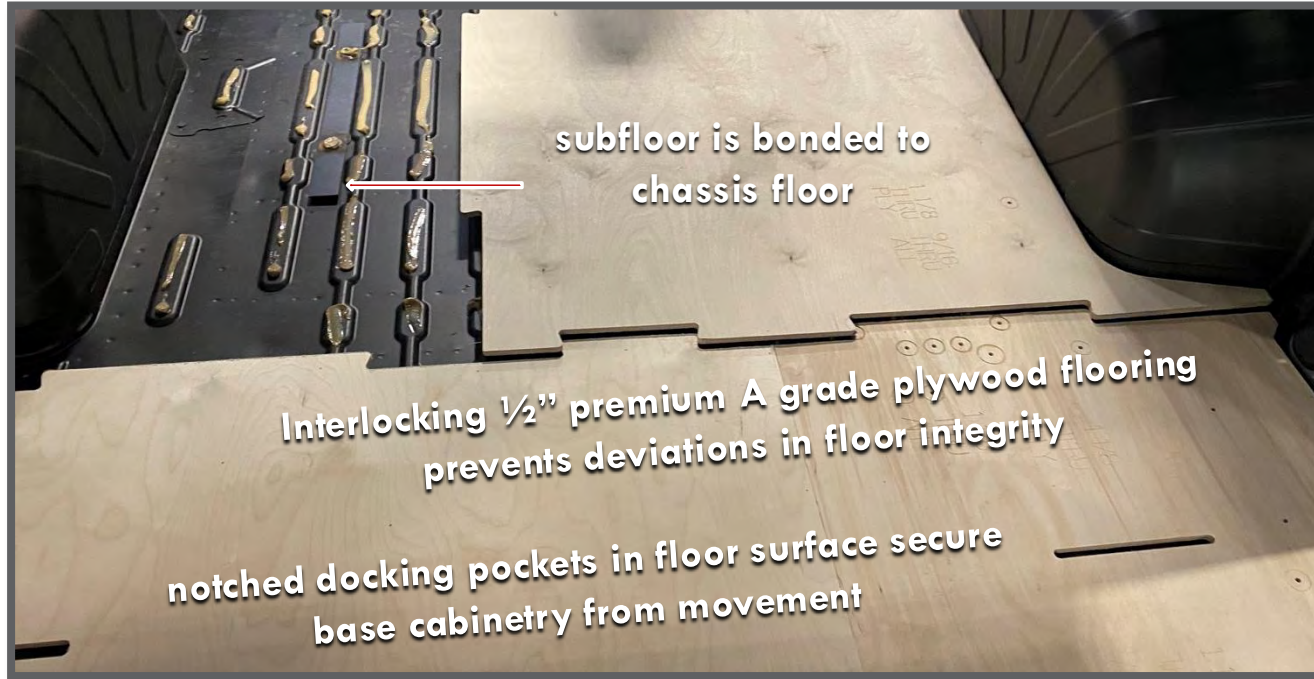

At Roadtrek our cabinets are custom CNC cut to duplicate the sidewall profile of the Van.
This process improves the amount of usable space inside the vehicle.

MAXIMIZE **USABLE INTERIOR SPACE**

Interlocking *Floor* Structure

Polyurethane adhesive and countersunk fasteners bonds the ½" Grade A plywood to the chassis floor

Acrylic floor adhesive bonds the floor vinyl to the plywood

Precision fit to chassis profile

Every *Cabinet* Is Designed To Last

Commitment to detail combined with plywood, screws, and glue are essential components of the cabinet assembly process.

Precision Milled *Seamless* Cabinet Edging

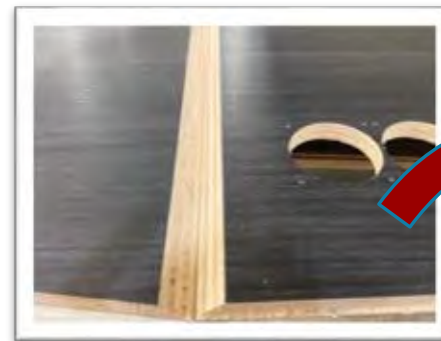

Much of the cabinet work in the Roadtrek utilizes the precision cutting of CNC (COMPUTER NUMERICAL CONTROL) technology. Precise milling enables some cabinet box folding during assembly. The process provides superior structure and eliminates the need for corner moldings which are common assembly “shortcuts” in competitors' products.

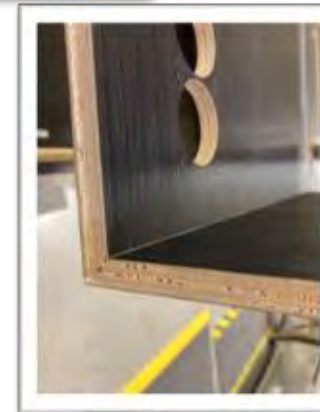

Program

Precision Cut

Inspection

Heat, Fold, Glue,
and Screw

Seamless Edge

ENVIRONMENTALLY FRIENDLY - CNC mapping utilizes the best possible use of each sheet of material which greatly reduces waste.

Interior *Cushions* And Cab Area Seating Features

Premium Series models feature custom Roadtrek-branded cab seat coverings designed for a coordinated, upscale interior feel.

HIGH DENSITY FOAM

High-density foam cushions provide a comfortable seating and sleeping surface while helping maintain shape over time.

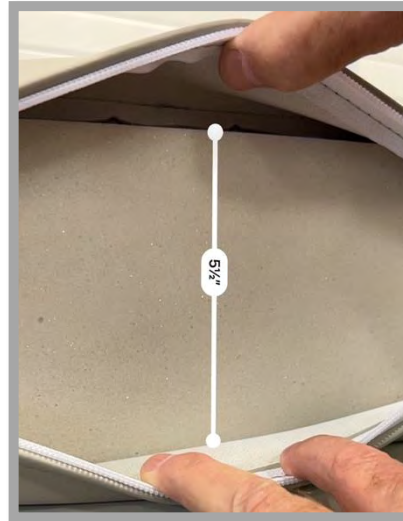

OPTIONAL CAB MATTRESS

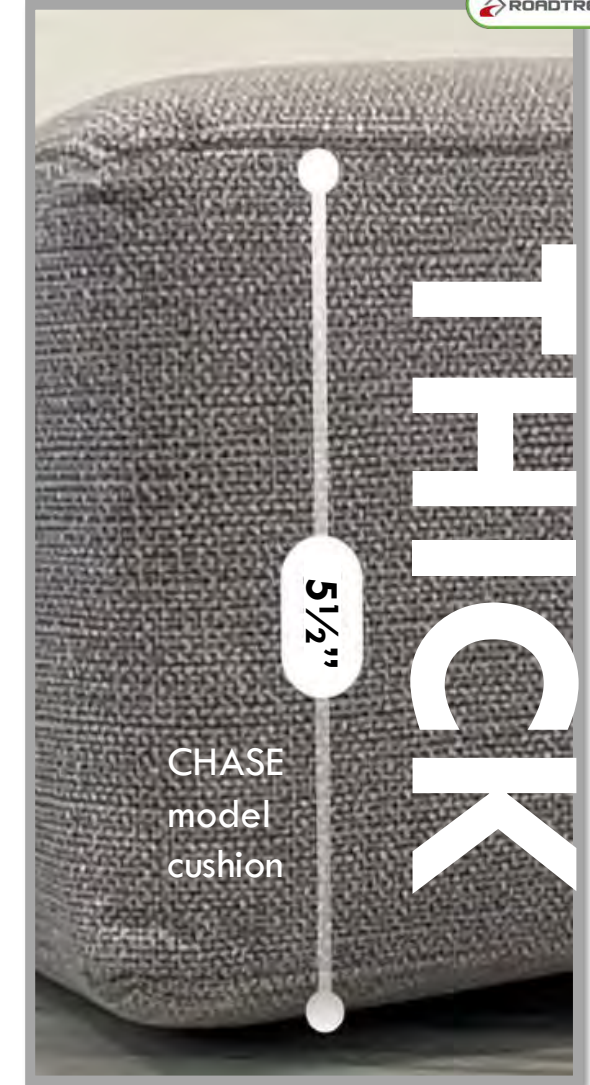

An available cab mattress transforms the front seating area into an additional sleeping space when extra flexibility is needed.

CHASE & PLAY model twin Bed **Adjustable Headrests**

Cushions are designed with **zipper openings**, making covers easier to remove, clean, service, or replace when needed.

Submersion Test On All Holding Tanks

This EXTRA STEP helps to validate a leak free plumbing system in your new Roadtrek. (Mandatory testing on every Roadtrek we build)

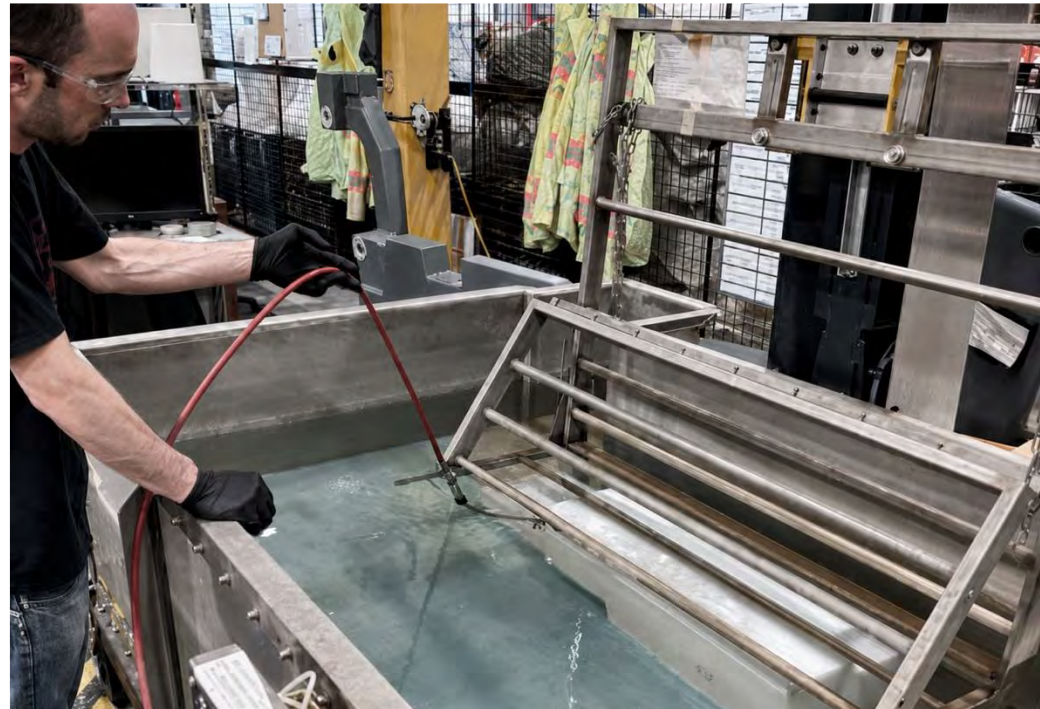

1

Air pressure is connected to the inlet of the completed tank assembly.

2

The tank is then submerged underwater for 1 minute to confirm there are no air bubbles present.

Plumbing System

How *water moves* through a Roadtrek

Roadtrek camper vans are designed to carry fresh water, deliver it where it is needed, heat it for comfort, and collect used water for proper draining. This diagram provides a simple overview of the main plumbing components found in a typical camper van system.

- 🔧 **Fresh Water Fill** - Where fresh water is added to the onboard water tank.
- 🔧 **Fresh Water Tank** - Stores clean water for use when the van is not connected to a campground water source.
- 🔧 **Water Pump** - Moves water from the fresh water tank to the faucets, shower, toilet, and other fixtures.
- 🔧 **Water Heater** - Heats water for everyday use, such as washing dishes, rinsing, or showering.
- 🔧 **Galley Faucet** - Provides water at the kitchen sink for cooking, cleaning, and handwashing.
- 🔧 **Interior Shower Faucet** - Provides water for showering or rinsing inside the coach.
- 🔧 **Toilet** - Uses water from the onboard system to support bathroom use while traveling.
- 🔧 **Exterior Shower Faucet** - Provides an outdoor rinse point for gear, pets, footwear, or quick cleanup.

- 🔧 **Grey Water Tank** - Collects used water from sinks and showers until it can be drained.
- 🔧 **Black Water Tank** - Collects waste and water from the toilet until it can be emptied at a dump station.
- 🔧 **Drain Valve** - Allows the grey/black water tank to be emptied at an approved dump station.
- 🔧 **Plumbing Vent** - Helps the plumbing system drain properly and manage tank ventilation.

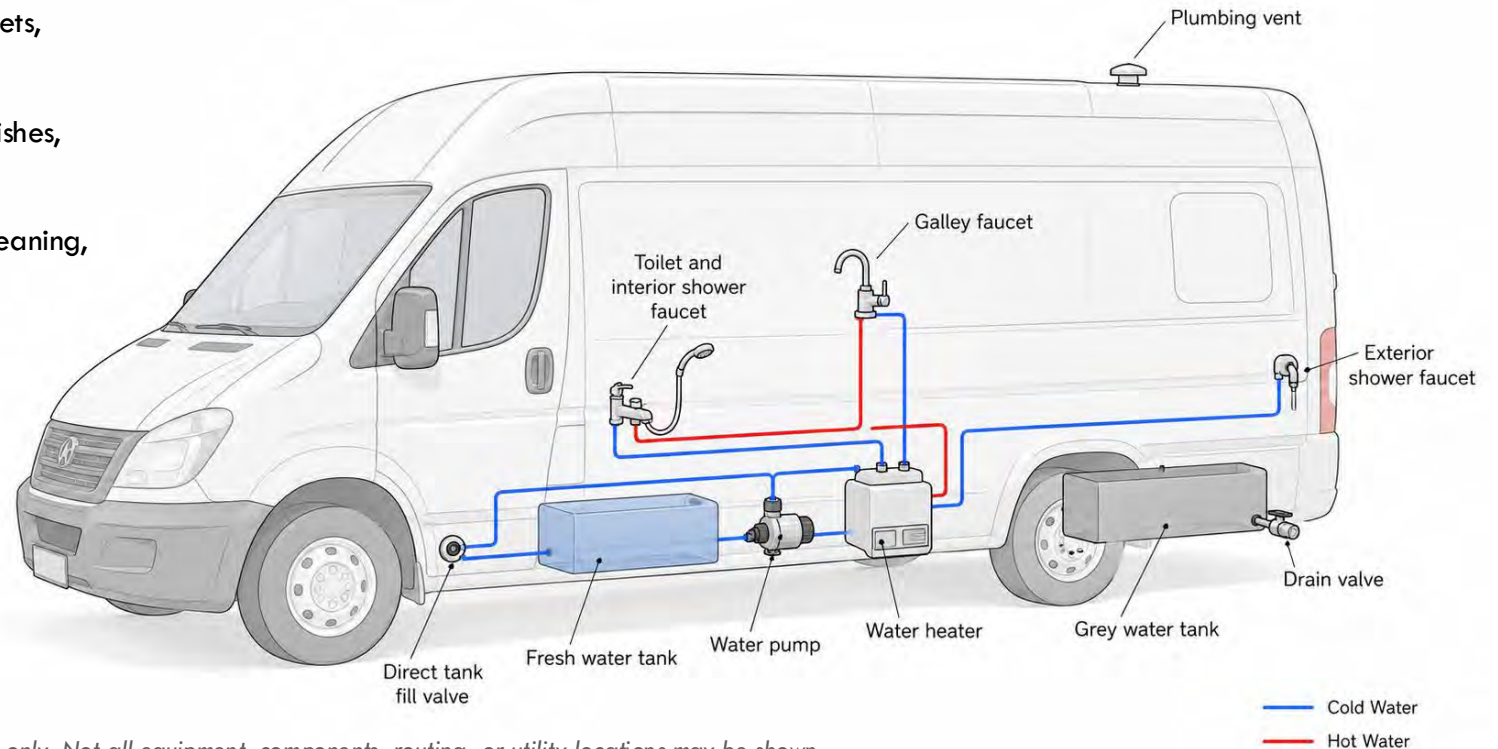

Diagram shown for illustrative purposes only. Not all equipment, components, routing, or utility locations may be shown. Actual equipment and locations may vary by model, floorplan, model year, chassis, and available options.

Unrivalled Water Capacity

More fresh water. *More freedom.*

Roadtrek's water system is designed to give owners generous fresh water capacity without sacrificing interior space. By using smart tank placement and custom-shaped components, Roadtrek makes the most of available space while keeping the coach clean, functional, and comfortable.

- 🔧 **Smart Concealment:** Fresh water tanks are strategically positioned to make efficient use of space while maintaining a clean, finished interior.
- 🔧 **Custom Shapes, Clever Spaces:** Purpose-built tank shapes allow Roadtrek to use otherwise hidden or underutilized areas within the vehicle.

and water line volume.

Electrical & Propane

How *power and fuel* work in a Roadtrek

- 🔌 **Solar Panels** - Capture energy from the sun to help charge the house batteries.
- 🔌 **A/C** - Provides cooling and comfort inside the coach.
- 📡 **Antenna** - Over-the-air antenna captures local TV stations.
- 🔌 **Alternator (Engine Charging)** - Helps charge the house batteries while you drive.
- 🔌 **House Batteries (Lithium or AGM)** - Store power for use when the van is parked or not connected to shore power.
- 🔌 **Inverter / Charger** - Converts battery power for household-style use and helps recharge the batteries when connected to external power.
- 🔌 **Battery Charger** - Supplies charging power to the battery system when plugged in.
- 🔌 **DC Distribution Panel** - Distributes 12V power to key coach systems and components.
- 🔌 **AC Distribution Panel** - Distributes 120V power to appliances and outlets.
- 🔌 **Shore Power Inlet** - Connects the van to campground or household electrical service.
- 🔌 **GFCI Outlets** - Protected outlets designed to improve safety in areas where moisture may be present.
- 📺 **TV / Coaxial Outlets** - Provide connection points for television and entertainment equipment

Roadtrek camper vans are designed to give you the comforts of home while on the road. This diagram shows the main electrical and propane components that help power everyday essentials like lighting, outlets, climate control, cooking, and hot water.

- 🔌 **Microwave** - A common 120V appliance powered through the coach's electrical system.
- 🔌 **Propane Tank** - Stores propane fuel for select coach appliances.
- 🔌 **Furnace** - Uses propane to heat the interior of the van.
- 🔌 **Water Heater** - Uses propane to heat water for washing, rinsing, and showering.
- 🔌 **Cooktop** - Uses propane for cooking meals inside the coach.

Diagram shown for illustrative purposes only. Not all equipment, components, routing, or utility locations may be shown. Actual equipment and locations may vary by model, floorplan, model year, chassis, and available options.

Battery Power Options

Power for the way you travel

Class B RVs use different battery systems to support lights, appliances, climate control, entertainment, and off-grid comfort. Roadtrek offers multiple power options so owners can choose the level of energy storage, performance, and convenience that best fits their travel style.

AGM Battery Power

While AGM batteries have traditionally provided a reliable foundation for RV coach power, Roadtrek now equips both Play and Premium Series models with advanced lithium battery systems for greater efficiency, longer-lasting performance, and more confidence off-grid.

300 Amp Lithium Power

Roadtrek Play Series models come equipped with 300 amp lithium power, offering lighter weight, faster charging, higher output, and longer battery life compared to traditional AGM batteries.

600 Amp Lithium Power

Roadtrek Premium models come standard with 600 amp lithium power, using two lithium batteries to support longer off-grid stays, higher-demand appliances, and greater travel flexibility.

Lithionics Upgrade Options

Owners can upgrade to 330 amp Lithionics power on Play Series models or 660 amp Lithionics power on Premium models for enhanced performance, monitoring, and premium battery technology.

Lithionics Power Upgrade

Premium power for more confidence

For owners who want more than extra battery capacity, the Lithionics upgrade delivers a higher level of battery engineering, safety, monitoring, and long-term performance.

Cell-Level Safety

Premium matched Lithium Iron Phosphate (LiFePO₄) Cells optimized for safety and long cycle life.

NeverDie® Battery Management System

Helps protect the battery system by monitoring performance and helping prevent unsafe operating conditions such as over-discharge, over-charge, and temperature-related concerns.

UL Mobile Safety Certification

Lithionics Aluminum Alloy Enclosure meets UL 1973 Certification for both stationary and mobile applications, with anti-shock foam and vibration-tested construction designed to support durability, safety, and confidence.

Fewer Points of Failure

Lithionics uses a solid internal battery design with fewer cells and fewer weld points, helping reduce potential failure points compared to battery designs built with many individual welded cells.

Aluminum Heat-Sink Case

The aluminum battery case helps manage heat more effectively than plastic-cased designs, supporting cooler operation during charge and discharge cycles.

Integrated Heater Pad

A heater pad located beneath the battery cells helps support performance in cooler temperatures by warming the cells from inside the battery system.

Extensive Quality Testing

Each Lithionics battery goes through detailed quality checks, including thousands of data readings and thermal camera testing, with the testing process taking longer than the battery build itself.

Smart App Monitoring

Bluetooth app connectivity allows owners to view battery telemetry, including state of charge, state of health, battery life, diagnostics, and system information directly from their phone.

Built & Tested in the USA

Lithionics batteries are designed, engineered, built, and tested in the USA for quality control, durability, and precision.

Details Matter- Electrical

Reliable *power*, thoughtfully protected

Protected Lithium Battery Storage

Lithium modules are stored safely under the chassis, helping preserve valuable interior storage space while keeping components protected.

Weather-Protected Terminals

Heavy-gauge steel safety boxes and protected terminals help shield key electrical components from road conditions and weather exposure.

Auxiliary AGM Battery Support

Roadtrek models include an auxiliary AGM battery to support source current for generator start-up and Firefly system operation.

PURE SINE WAVE CHARGER/ INVERTER 3,000 WATT

The pure sine wave charger/inverter helps power key appliances and supports smoother operation for sensitive electronics and higher-demand components.

HELPS ELIMINATE TRIPPING CIRCUIT BREAKERS

The inverter is designed to handle temporary power spikes up to 9,000 watts, helping support appliances such as the microwave or air conditioning during start-up demand.

Details Matter - Electrical

UNDERHOOD GENERATOR

Extremely easy to use. If the engine is running, the system is generating house battery power.

WHISPER QUIET

Using chassis engine idle is extremely quiet.

CAMPGROUND FRIENDLY

FAST RECHARGE RATE

Output of GU is rated 280 Amps hr.

No propane required

300*^{WATTS} Solar

Regulated charge control. Maximum Output 25 Amps/hr

*Please see individual model specifications for specific solar equipment availability. PLAY SERIES Models available with **optional** 300 Watt bundled Solar package. Premium SERIES models include 300 Watt Solar pkgs.

Waste Management

Gravity *feed and macerator* pump

FAST, HYGIENIC, WASTE DISPOSAL

Touch a button to activate the macerator pump

The entire waste management station is concealed behind a lower sidewall skirt.

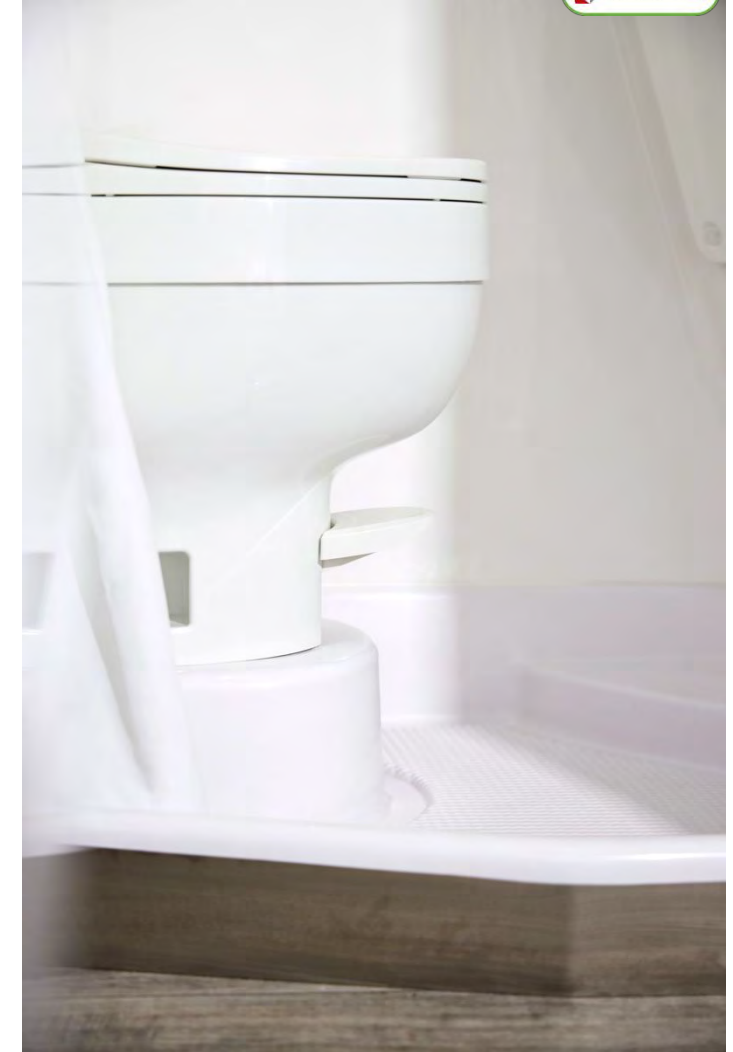

Easy to Use

Convenient 9' HD extension hose

1. Pull out sewage hose
2. Connect to waste terminal
3. Open gate valve
4. Turn on pump

Sewer hose is stowed in a convenient **LOCKING** enclosure outside of the vehicle.

HVAC

Premium Roadtrek models feature Truma appliances known for quiet operation, efficient performance, and dependable comfort.

Efficient Heating

The Truma VarioHeat furnace delivers powerful heating in a compact design, helping keep the coach comfortable in cooler conditions.

On-Demand Hot Water

The Truma AquaGo comfort water heater provides reliable hot water when needed, with easy winterization through Truma's drain lever system.

Fresh Air Ventilation

The powered roof vent brings fresh air inside, helps reduce moisture, and includes remote-control operation with an auto-close rain sensor.

 **SL BTU roof mount**

Roof-Mount Air Conditioning

The Truma Aventa eco A/C helps balance temperature and humidity while minimizing noise and conserving energy.

Note: SL models feature 110 V, 13,500 BTU roof mount A/C.

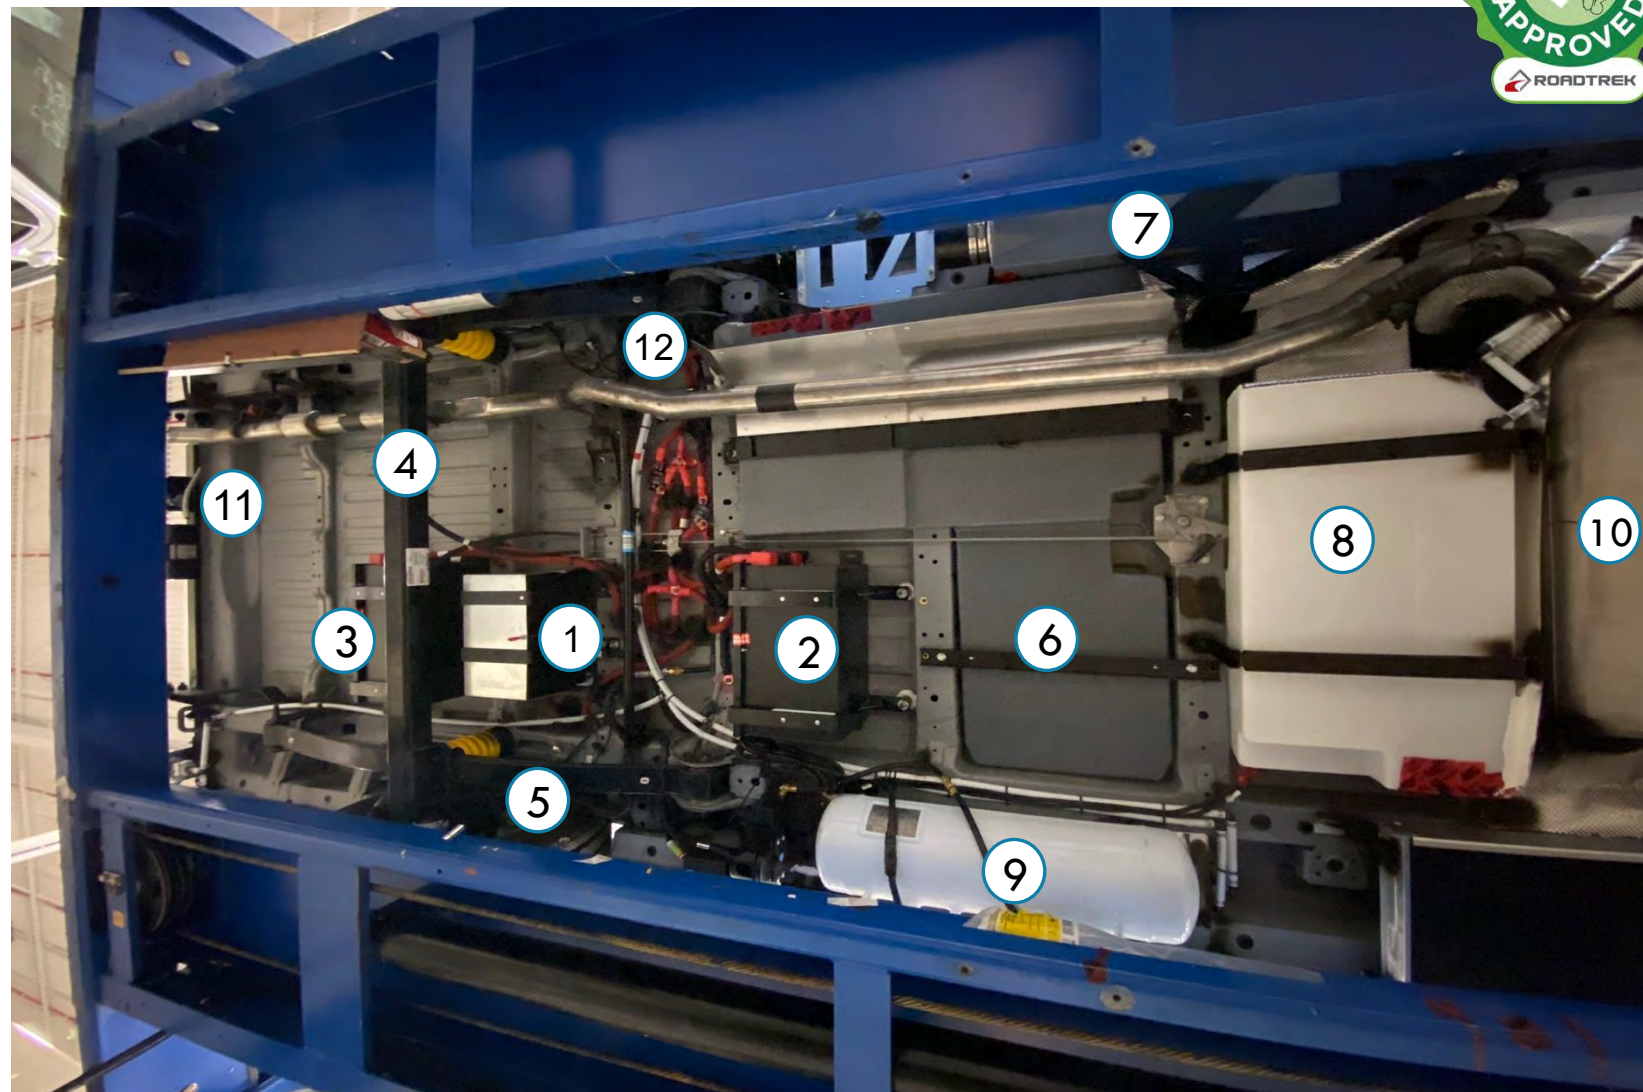

Note: The Play series models feature Girard tankless water heater system, propane furnace, and 110 V, 11,000 BTU roof mount A/C.

Get Hitched

Unleash the *towing power* of your Roadtrek

Roadtrek Class B motorhomes are designed to support the way owners like to travel, with towing capability that adds even more flexibility to every adventure. Whether it's bikes, a small trailer, ATV, motorcycle, snowmobile, or small boat, Roadtrek makes it easier to bring your favourite gear along.

Safe Towing and Weight Ratings

Understanding Gross Combined Weight Rating (GCWR), Gross Vehicle Weight Rating (GVWR), and hitch rating, you can determine the maximum amount of weight your Roadtrek can safely tow and carry. With proper calculation of tongue weight and cargo capacity, you can confidently bring along all your essentials while exploring the open road.

$$\text{FX=}$$
$$\text{GCWR} - \text{Loaded Vehicle Weight} = \text{Towing Capacity}$$

3,500 lb Rated Hitch Receiver

Every Roadtrek comes equipped with a hitch receiver rated for up to 3,500 lbs, giving owners more options for travel, recreation, and adventure.

Interior Highlights

- ❖ Roadtrek premium kitchens include a solid surface countertop featuring a sink cover, accompanied by an extra-large fold-away extension.
- ❖ Enjoy effortless cleaning with a stainless backsplash, complemented by a single-lever high-top faucet equipped with a rinse handle.
- ❖ Enhance your workspace with the Lagun Adjustable swivel table, seamlessly adaptable for both front and rear areas of the vehicle, offering swivel, extension, and adjustable height functionalities.

❖ *PLAY Series models feature pedestal table.*

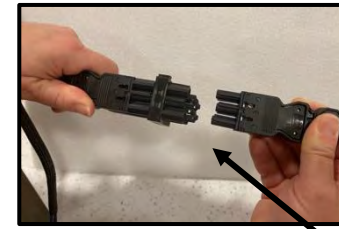

Interior Storage

The abundance of intentional storage throughout the coach is part of the reason why Roadtrek is superior among class B coaches.

➤ **HUGE EASY ROLLOUT PANTRY**

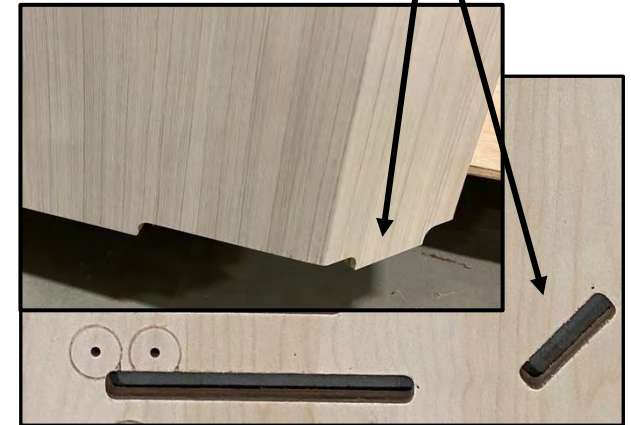

➤ **HUGE POT AND PAN STORAGE DRAWER**

➤ Wieland Connectors streamline cabinet module wiring in the shop, enabling effortless connection to the primary electrical harness upon installation in the Roadtrek.

➤ Base cabinets are precisely docked into subfloor notches, ensuring rock-solid stability against hard braking and rough road conditions.

Wet Bath

Beyond the bare necessities

All Roadtrek wet baths are constructed with seamless fiberglass enclosures and feature a large sink, marine toilet, towel bars, mirror, light, rinse handle, and shower drape.

- Marine-grade toilet with pedal flush, slow-close seat & cover

- Bathroom door latch designed to expand wet bath up to 20%

- The inlaid storage space ensures toiletries stay safely stowed while keeping clutter at bay.

Appliances

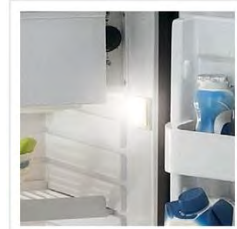

Compressor refrigerators can chill to lower temperatures and cool more consistently than absorption refrigerators regardless of the outside ambient temperature.

Leatherette

Flooring

 **Willow Sage** is a mixture of calming soft hues of pastel mint with a very light grey/white backdrop.

*Available Only for
Zion, Zion SL, Chase*

Zion & Zion SL

The Roadtrek Zion is our signature model and layout that Roadtrek is known for. Featuring 2 configurations designed to suit your needs and surpass expectations.

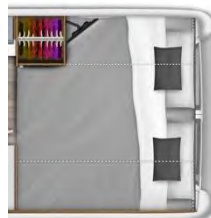

- Fully equipped kitchen offers propane or optional induction stove, stainless steel undermount sink with flush mount cover, gooseneck faucet, flip-up counter extension, roll-out pantry and deep pot and pan drawer
- Abundant storage and center aisle storage access from the rear of the coach for bikes and outdoor adventure gear

CHASE

The development of the Roadtrek Chase was inspired by over 5 decades of experience. Clear sightlines from the front to the back of the coach as well as enhanced comfort and modern convenience throughout, offer the best of both worlds.

- Featuring Italian leather accents and extra thick, high-density bed cushions, as well as adjustable headrests.
- Largest RV king bed and individual twin bed sizes in one Class B
- Center aisle access allows for easy loading and carry along storage for things like kayaks, paddle boards, bulky items.

Play & Play_{SL}

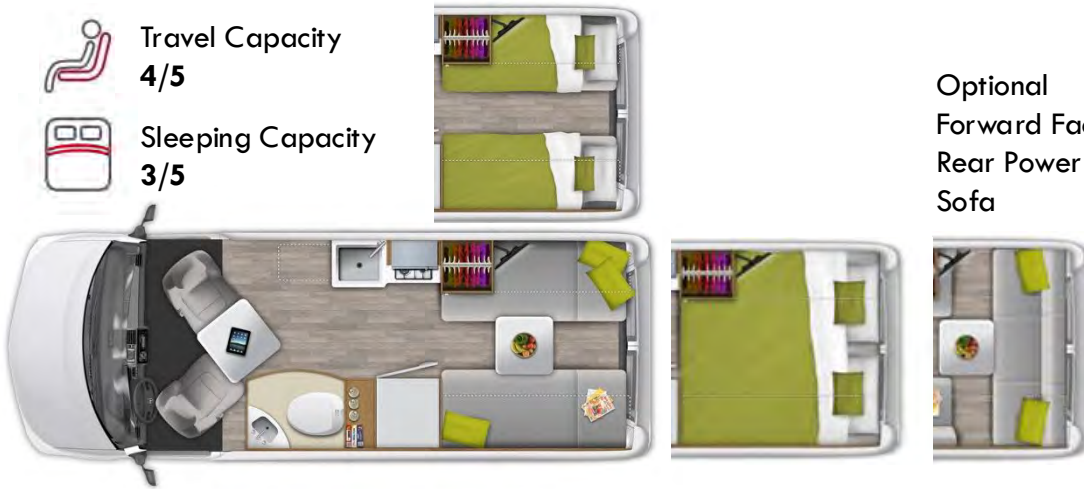

The Play is the perfect base model coach offering a practical, reliable and easy to service motorhome with all the comforts you need to get out and play.

➤ The Play series offers a 2 configuration comparable layout to our premium series models at an economical price.

PLAY^{TUFF} & PLAY^{TUFF SL}

The PLAY TUFF delivers a tougher stance, added functionality, and sport-inspired comfort, designed for travelers who want more confidence from every mile.

- Black rims, all-terrain tires, spare tire, tire rack, and an aggressive side-step give the Roadtrek Play TUFF a bolder, more capable presence.
- Sport-inspired leatherette seating, rear interior door-mounted storage blends durability and comfort with a modern, rugged aesthetic.
